KUTAHYA
PORSELEN

KÜTAHYA

PORSELEN

Kütahya Porselen, 5 fabrikasında yıllık 100 milyon parçalık üretim kapasitesi ile dünyanın en büyük porselen üretim hacmine sahiptir. Ev serisi, otel serisi, sanat evi serisi ürünleri, Naturaceram ve Mitterteich markaları ve sürekli yenileri açılan mağazaları ile tüketiciyle buluşuyor. Çevreye duyarlı, en son teknoloji ile üretilen yüksek kalite ürünler; tasarım ve ARGE faaliyetlerine verilen önemle sürekli geliyor ve yenileniyor.

Kütahya Porselen yatırımlarının uluslararası başarısı da Türkiye'nin göğsünü kabartıyor. Avrupa'nın en büyük porselen markalarından Mitterteich Porzellan 120 yıllık geçmişi, tecrubesi ve ileri teknolojisi ile 2005 yılında Kütahya Porselen tarafından ülkemize kazandırıldı.

With 100 million pieces of annual production capacity of porcelain tableware in 5 factories, Kütahya Porselen is the largest manufacturer worldwide. His products for home use, hotel use, giftware reach to consumers under Naturaceram and Mitterteich brand names through his showrooms. High quality, environment friendly products; manufactured with latest technology are continuously improving and renewing with new designs and R&D activities. International success of Kütahya Porselen is proud for Turkey. Mitterteich Porzellan, one of the most well known brand name of Europe, is gained to Turkey by Kütahya Porselen in 2005 with its 120 years experience and high technology.

PORSELEN

PORSELEN VE SAĞLIK

Porselen, doğadan gelen hammaddelerle yapılan, beyazlığını bu hammaddelerin özelliklerinden alan, pişirildiğinde sertleşen yarı saydam ürün olarak tanımlanır. Yüksek sıcaklıkta üretildiği için porselen sırları kurşun - kadmiyum gibi zehirli ağır metaller ihtiva etmez. Ancak, porselen üzerine yapılan sır üstü dekorasyonlarda kullanılan kalitesiz boyalar kurşun - kadmiyum içerebilir. Kullanılan sır üstü ve sır içi boyalarda bulunan kurşun kadmiyum gibi zehirli ağır metaller asitli yiyecekler ile çözünerek yemekle birlikte insan vücuduna taşınarak, ciddi sağlık problemlerinin önünü açar.

Kütahya Porselen Turizm A.Ş.'de, AR-GE laboratuvarlarında bulunan son teknoloji ve yüksek hız ile donatılmış analiz cihazları ve konusunda uzman çalışanları ile üretimde kullanılan tüm girdi hammaddeler ve nihai ürünler test edilir. Avrupa Birliği normlarına göre üretim yapılır.

Belirli limitlerin üzerinde kurşun ve kadmiyum içeren sofraya eşyaları insan sağlığını olumsuz yönde etkiler. Tüm dünyada bu limitler standartlar ile belirlenir. Standartlarda belirlenen limitlerin üzerinde kurşun - kadmiyum içeren sofraya eşyaları insan sağlığını ciddi bir şekilde tehdit eder. Bu nedenle de tüketicilerin, alışveriş ve seçimlerinde dikkat etmesi gereken en önemli nokta, üreticisi ve markası belli olan kalite standartlarından taviz vermeyen kurumları tercih etmeleridir.

PORCELAIN AND HEALTH

Porcelain is described as a translucent product that made from natural raw materials and got the whiteness from this materials' properties. To be produced at high temperatures, porcelain glaze do not contain heavy lead-cadmium. But, inferior paints using for glaze decoration, made on porcelain might contain lead-cadmium. Toxic heavy metals like lead & cadmium that used in glaze decoration can be dissolved and moved into the human body with acidic foods, can cause serious health problems.

In Kutahya Porselen Turizm A.S., R&D labs are equipped with the latest technology and high speed analysis instrument. Expert employees test all the inputs used in the production of raw materials and final products are tested. Products are produced according to European norms.

Tableware, containing lead & cadmium above a limit, adversely affect human health. All over the world, these limits are determined by standards. Porcelain containing lead & cadmium above the limits which are specified in the standard of tableware, seriously threatens human health. For this reason the most important point that consumers should be careful in shopping and selection is preferring particular manufacturers and brands who are producing in good quality standards.

PORSELENLERİ YIKARKEN NELERE DİKKAT ETMELİYİZ ?

El ile Yıkamada :

- Krem ve sıvı deterjanlar kullanılabilir.
- Yıkama kabı alüminyum olmamalıdır.
- Porselenlerin yanında, tava ve tencere gibi porselen dışı eşyalar bulunmamalıdır.
- Sert temizlik maddeleriyle ve telle ovularak temizlenmemelidir.
- Yıkandıktan sonra bol su ile durulanmalı ve mutlaka kurulanmalıdır.

Makine ile Yıkamada :

- Kullanılacak deterjana dikkat edilmelidir. Yüksek alkali içeren deterjanlar özellikle sır üstü dekorlara zarar verebilir.
- Bulaşık makinesine özel tuzlar mutlaka kullanılmalıdır. Kullanılmadığı takdirde ürün yüzeyinde zamanla kireç tabakası oluşur, ürün parlaklığı bozulur.
- Bulaşık makinesi sıcaklığı maksimum 60 °C olmalıdır.
- Porselenler makineden tam kurutulmuş olarak alınmalıdır.
- Makinede porselen ve metal eşyalar aynı anda yıkanmamalıdır.
- Makineye yerleştirmede porselen eşyaların birbirleriyle temas halinde olmamasına dikkat edilmelidir.

KULLANDIĞIMIZ ÇATAL- BIÇAK KALİTESİ PORSELENİ NASIL ETKİLER?

Yüksek sıcaklıkta pişirildiği için porselen sırları serttir. Eğer kullanılan çatal bıçağın çelik kalitesi standartlara uygun değil ise sert porselen sırları metali tutar ve ürünlerde gri metal izleri oluşur. Porselenlerde bu izlerin oluşmaması için uygun kalitede çatal bıçak kullanılması tavsiye edilir.

NEDEN PORSELEN ?

- Tat ve koku sinmez.
- Porselen zariftir, göz zevkine hitap eder.
- Porselen yemeğe keyif katar.
- Pekişmiş yapısı mikrop barındırmaz.
- Sert yüzeyi çizilmez.
- Üzerinde oluşan lekeler kolayca çıkar.
- Kolay yıkanır.
- Sağlık ve temizlik demektir.
- Aside ve alkaliye karşı dayanıklıdır.

WHAT SHOULD WE CARE WHILE WASHING THE PORCELAIN?

Washing by hand:

- Cream and liquid detergents can be used.
- Wash pot should not be made of aluminium.
- Saucepan and pan that are not made of porcelain should not be next to goods.
- Should not be used hard cleaning materials and wash wire.
- Rinse with plenty of water and make sure to dry after washing

Washing by dishwasher:

- Detergent to be used should be considered. Especially highly alkaline detergents can damage the on glaze decor.
- Special dishwasher salt must be used. If the product is not used, a layer of lime consists on the surface after a while and brightness deteriorates.
- Maximum temperature of dishwasher should be 60 degrees
- Porcelains should be taken from dishwasher as fully dried
- Porcelains and metal items should not be washed at the same time.
- Porcelains should not be placed in contact with each other.

QUALITY OF CUTLERY HOW TO EFFECT THE PORCELAIN?

The glaze of porcelain is hard due to kilned at high temperatures. If the quality of cutlery steel is not suitable in accordance with the standards, the glaze of hard porcelain keeps the metal and consist grey metal traces on the porcelain. In order to avoid these traces on the porcelain, high quality cutlery is recommended to use.

WHY PORCELAIN?

- It does not keep odor and flavor
- Porcelain is elegant and is suitable for viewing pleasure
- Add to enjoy to the food.
- Germ does not lie due to consolidated structure
- The hard surface is not scratched
- The spots remove on it easily
- Washed easily
- Healthy
- Resistant against to alkali metals and acid

HAUSHALTS SERIEN

Die Marke Mitterteich, die über eine klassische Linie verfügt, produziert die Serie mit Relief in vier verschiedenen Gruppen, nämlich in schlicht, Gold, Platin und Matt. Unsere "Matt" und „Relief“ (ohne Farbe) Produkte werden in Handarbeit mit zusätzlich überlegener Technologie produziert. Diese weltweit nur von einigen Herstellern verwendete Technik ist ein Kennzeichen der Mitterteich Porzellan. Unsere Haushalts-Serien, verfügbar als Tafelservice, Frühstücks-Sets und Tee-Service sind auch je nach Bedarf der Verbraucher als Einzelteile kaufbar. Diese können, je nach Wunsch und Geschmack von Ihnen aus einer Serie individuell zu Ihrem Service zusammengestellt werden und nach Bedarf in Zukunft auch aufgestockt bzw. ergänzt werden. Sie können sich selbstverständlich aus dem breiten Sortiment der MITTERTEICH Produkte auch Geschenke und Mitbringsel aussuchen. Diese sind in speziellen Boxen und Kartons verpackt.

HOTEL SERIEN
28-54 page

HOTEL SERIEN

Diese Serien für Gastronomie und Catering-Gruppen, geeignet für den professionellen Einsatz dank des Systems der verstärkten Kanten und Ränder bietet eine hohe Festigkeit gegen Stoß- und Kantenbruch.

Für Hotels und Restaurants bieten wir Serien mit Relief in weiß und dekoriert sowie auch spezielle Inglasur- Dekorationen sowie Logo-Designs an

HOME SERIES
04-27 page

HOME SERIES

Represents the Classic and neo-classic style, Mitterteich trademark's self-embossed products are produced in four different group; plain, gold-gilded, white-gold-gilded and satin. Especially satin self-embossed (un-painted) products produce with high-technology as well as manual-labor. This lesser preferred difficult production technique is the specialty of MITTERTEICH Porcelain.

These special porcelains can supply as special sets such as breakfast or tea set as well as one piece regarding consumer needing. You can make your own set with pieces that you chose and you can make different number sets or later in the future you can add new pieces from same models... MITTERTEICH has a plenty of choice as a gift too. You can have them in their special gift boxes...

HOTEL SERIES
28-54 page

HOTEL SERIES

Hotel and service products are specially produced for professional usage that they have high-resistance to the strikes and edges of the dishes powered with armor system to reduce the edge-cracks. For hotel and restaurant usage you can chose self-embossed products or you may order special products with under-glaze pattern or logo decoration.

Medina

Wenn Sie den Stil der klassischen runden Teller nicht mögen, wird Sie die eckige Form der Serie Medina auf jeden Fall ansprechen.
If you say my style is not classical round plates , It means that Medina with the square form bespeaks to you.

Die Serie Retto erinnert mit jeder Kurve an die Wellen des Meeres, wurde eigens mit einem verstärkten Rand gegen Bruch produziert und hat eine leichte Handhabung. Mit Ihrer etwas anderen Art wird das Essen auf Porzellan zum besonderen Genuss.

Mugs & Cups

Wie wünschen Sie sich die Tassen und Mugs von Mitterteich? Sollen wir Sie in den afrikanischen Dschungel entführen oder auf den klassischen englischen 5 Uhr Tee einladen? Die Entscheidung liegt bei Ihnen.

Patterned...

How would you liked Mitterteicht mugs and cups ?

Do you want us to take you away to mysterious jungle in Africe or invite you to classical 5 English tea time ?

The choice is yours.

A collection of handcrafted ceramic plates and a wooden cutting board. The plates are light blue with concentric circular patterns and dark speckles. The cutting board is made of dark wood and has a black cord tied around its handle. The items are displayed on a white surface against a white background.

“PORSELEN ALIRKEN KURŞUN KADMİYUM İÇERMEYEN ÜRÜNLER ALINIZ.”

Sağlığımıza ne kadar özen gösteriyoruz?

Yemek yerken kullandığımız eşyalar ne kadar sağlıklı? Tüketiciler, kurşun kadmiyum içeren sofraya eşyalarının insan sağlığına verdiği zararları bilmeyebilirler. Ancak, sektörün dünyadaki liderlerinden birisi olan Kütahya Porselen San. A.Ş. olarak tüketicileri bilgilendirmek görevimizdir.

Peki nedir Kurşun ve Kadmiyum?

Üretimi ucuz getirmek için kullanılan zehirli ağır metallerdir. Düşük sıcaklıklarda pişirmeleri yapılan porselen görünümlü bazı seramik sofraya eşyası ürünleri sırlarında, ucuz mal etmek hırsı içinde olan bazı üreticiler tarafından ergetici olarak kurşun kullanılmaktadır. Ürünler pişirilerek nihai ürün şekline dönüşten sonra bu ürünler kabul edilebilir limitlerin üzerinde kurşun ve kadmiyum içermektedir.

Bu ürünleri bilmeden kullananların tabaklarında ve dekorlarında bulunan kurşun-kadmiyum, asitli yiyeceklerle çözülerek, yemekle birlikte insan vücuduna taşınmakta ve insan sağlığı da risk altına girmektedir.

Porselen ve seramik sofraya eşyası alırken kalitesine güvendiğiniz markaları tercih etmeye özen gösterin.

Kütahya Porselen, aynı çatı altında dünyanın en büyük porselen üretim hacmine sahiptir. Ev serisi, otel serisi, sanat evi serisi ürünleri, Naturaceram ve Mitterteich markaları ve sürekli yenileri açılan mağazaları ile tüketiciyle buluşuyor. Çevreye duyarlı, en son teknoloji ile üretilen yüksek kalite ürünler; tasarım ve ARGE faaliyetlerine verilen önemle sürekli geliştiriyor ve yenileniyor.

Kütahya Porselen yatırımlarının uluslararası başarısı da Türkiye'nin göğsünü kabartıyor. Avrupa'nın en büyük porselen markalarından Mitterteich Porzellan 120 yıllık geçmişi, tecrubesi ve ileri teknolojisi ile 2005 yılında Kütahya Porselen tarafından ülkemize kazandırıldı.

With 100 million pieces of annual production capacity of porcelain tableware in 5 factories, Kütahya Porselen is the largest manufacturer worldwide. His products for home use, hotel use, giftware reach to consumers under Naturaceram and Mitterteich brand names through his showrooms. High quality, environment friendly products;

manufactured with latest technology are continuously improving and renewing with new designs and R&D activities. International success of Kütahya Porselen is proud for Turkey. Mitterteich Porzellan, one of the most well known brand name of Europe, is gained to Turkey by Kütahya Porselen in 2005 with its 120 years experience and high technology.

PORFLAME

Collection

Biz, benzersiz formülü yaratmak için her zaman en iyi içeriği kullanırız. Ürünlerimiz %100 Kütahya Porselen garantisindedir. Ürünlerimiz üretimin her prosesinde kalite kontrolünden geçer. Biz yüksek beceriye sahip insan gücüyle modern teknolojiyi birleştiririz.

Porflame ürünlerimiz; Kütahya Porselen tesislerinde Türk Mühendisleri tarafından geliştirilmiş, ısıya ve direkt ateşe dayanıklı teknik porselen malzemeden üretilmiştir.

· Porflame ürünler bulaşık makinesinde yıkanabilir mi?
Ürünlerimiz bulaşık makinesinde yıkamaya uygundur. Porselen kırılğan malzeme olduğu için darbelerden etkilenir. Bulaşık yıkarken, taşıma veya bir yere koyma esnasında porflame ürün darbe alırsa, bu darbe bünyede gözle görülmeyen çatlakların oluşmasına sebep olur. Ürün alevle temas ettirildiğinde bu çatlaklar ilerleyerek ürünün kırılmasına sebep olur. Bu sebeple kullanım esnasında ürünlerin darbelere maruz bırakılmamasına özen gösterilmelidir.

· Porflame ürünlerde yanık, kir ve lekeleri nasıl temizlenebilir?
Temizlemeden en az 20 dk. önce ıslatılır, ardından temizlenir. Temizlik sert malzemeler ile yapılmamalı, sert malzemeler sıırı çizer.

· Porflame ürünlerin kulpları ısınır mı?
Normalde cezvelerin kulpları ısıya dayanıklıdır, ancak direkt alevle maruz kaldığından ısınır. Eldiven ile tutulması tavsiye edilir.

· Porflame ürünler nasıl muhafaza edilir?
Ürünler kuru bir şekilde muhafaza edilmelidir.

PORSELEN VE SAĞLIK

Porselen, doğadan gelen hammaddelerle yapılan, beyazlığını bu hammaddelerin özelliklerinden alan, pişirildiğinde sertleşen yarı saydam ürün olarak tanımlanır. Yüksek sıcaklıkta üretildiği için porselen sırları kurşun - kadmiyum gibi zehirli ağır metaller ihtiva etmez. Ancak, porselen üzerine yapılan sır üstü dekorasyonlarda kullanılan kalitesiz boyalar kurşun - kadmiyum içerebilir. Kullanılan sır üstü ve sır içi boyalarda bulunan kurşun kadmiyum gibi zehirli ağır metaller asitli yiyecekler ile çözünerek yemekle birlikte insan vücuduna taşınarak, ciddi sağlık problemlerinin önünü açar.

Kütahya Porselen San. A.Ş.'de, AR-GE laboratuvarlarında bulunan son teknoloji ve yüksek hız ile donatılmış analiz cihazları ve konusunda uzman çalışanları ile üretimde kullanılan tüm girdi hammaddeler ve nihai ürünler test edilir.

Avrupa Birliği normlarına göre üretim yapılır.

Belirli limitlerin üzerinde kurşun ve kadmiyum içeren sofraya eşyaları insan sağlığını olumsuz yönde etkiler. Tüm dünyada bu limitler standartlar ile belirlenir. Standartlarda belirlenen limitlerin üzerinde kurşun - kadmiyum içeren sofraya eşyaları insan sağlığını ciddi bir şekilde tehdit eder. Bu nedenle de tüketicilerin, alışveriş ve seçimlerinde dikkat etmesi gereken en önemli nokta, üreticisi ve markası belli olan kalite standartlarından taviz vermeyen kurumları tercih etmeleridir.

PORCELAIN AND HEALTH

Porcelain is described as a translucent product that made from natural raw materials and got the whiteness from this materials' properties. To be produced at high temperatures, porcelain glaze do not contain heavy lead-cadmium. But, inferior paints using for glaze decoration, made on porcelain might contain lead-cadmium. Toxic heavy metals like lead & cadmium that used in glaze decoration can be dissolved and moved into the human body with acidic foods, can cause serious health problems.

In Kutahya Porselen San. A.S., R&D labs are equipped with the latest technology and high speed analysis instrument. Expert employees test all the inputs used in the production of raw materials and final products are tested.

Products are produced according to European norms.

Tableware, containing lead & cadmium above a limit, adversely affect human health. All over the world, these limits are determined by standards. Porcelain containing lead & cadmium above the limits which are specified in the standard of tableware, seriously threatens human health. For this reason the most important point that consumers should be careful in shopping and selection is preferring particular manufacturers and brands who are producing in good quality standards.

PORSELENLERİ YIKARKEN NELERE DİKKAT ETMELİYİZ ?

El ile Yıkamada :

- Krem ve sıvı deterjanlar kullanılabilir.
- Yıkama kabı alüminyum olmamalıdır.
- Porselenlerin yanında, tava ve tencere gibi porselen dışı eşyalar bulunmamalıdır.
- Sert temizlik maddeleriyle ve telle ovularak temizlenmemelidir.
- Yıkandıktan sonra bol su ile durulanmalı ve mutlaka kurulanmalıdır.

Makine ile Yıkamada :

- Kullanılacak deterjana dikkat edilmelidir. Yüksek alkali içeren deterjanlar özellikle sır üstü dekorlara zarar verebilir.
- Bulaşık makinesine özel tuzlar mutlaka kullanılmalıdır. Kullanılmadığı takdirde ürün yüzeyinde zamanla kireç tabakası oluşur, ürün parlaklığı bozulur.
- Bulaşık makinesi sıcaklığı maksimum 60 °C olmalıdır.
- Porselenler makineden tam kurutulmuş olarak alınmalıdır.
- Makinede porselen ve metal eşyalar aynı anda yıkanmamalıdır.
- Makineye yerleştirmede porselen eşyaların birbirleriyle temas halinde olmamasına dikkat edilmelidir.

KULLANDIĞIMIZ ÇATAL- BIÇAK KALİTESİ PORSELENİ NASIL ETKİLER?

Yüksek sıcaklıkta pişirildiği için porselen sırları serttir. Eğer kullanılan çatal bıçağın çelik kalitesi standartlara uygun değil ise sert porselen sırları metali tutar ve ürünlerde gri metal izleri oluşur. Porselenlerde bu izlerin oluşmaması için uygun kalitede çatal bıçak kullanılması tavsiye edilir.

NEDEN PORSELEN ?

- Tat ve koku sinmez.
- Porselen zariftir, göz zevkine hitap eder.
- Porselen yemeğe keyif katar.
- Pekleşmiş yapısı mikrop barındırmaz.
- Sert yüzeyi çizilmez.
- Üzerinde oluşan lekeler kolayca çıkar.
- Kolay yıkanır.
- Sağlık ve temizlik demektir.
- Aside ve alkaliye karşı dayanıklıdır.

WHAT SHOULD WE CARE WHILE WASHING THE PORCELAIN?

Washing by hand:

- Cream and liquid detergents can be used.
- Wash pot should not be made of aluminium.
- Saucepan and pan that are not made of porcelain should not be next to goods.
- Should not be used hard cleaning materials and wash wire.
- Rinse with plenty of water and make sure to dry after washing

Washing by dishwasher:

- Detergent to be used should be considered. Especially highly alkaline detergents can damage the on glaze decor.
- Special dishwasher salt must be used. If the product is not used, a layer of lime consists on the surface after a while and brightness deteriorates.
- Maximum temperature of dishwasher should be 60 degrees
- Porcelains should be taken from dishwasher as fully dried
- Porcelains and metal items should not be washed at the same time.
- Porcelains should not be placed in contact with each other.

QUALITY OF CUTLERY HOW TO EFFECT THE PORCELAIN?

The glaze of porcelain is hard due to kilned at high temperatures. If the quality of cutlery steel is not suitable in accordance with the standards, the glaze of hard porcelain keeps the metal and consist grey metal traces on the porcelain. In order to avoid these traces on the porcelain, high quality cutlery is recommended to use.

WHY PORCELAIN?

- It does not keep odor and flavor
- Porcelain is elegant and is suitable for viewing pleasure
- Add to enjoy to the food.
- Germ does not lie due to consolidated structure
- The hard surface is not scratched
- The spots remove on it easily
- Washed easily
- Healthy
- Resistant against to alkali metals and acid

Do you know that some chinaware may contain lead, a chemical claimed to cause cancer, birth defects and other harm to reproductive system. Have you ever get your plates tested to see if they contain lead? All chinaware sold in the whole world is required to meet certain standars for lead and cadmium. The lead and cadmium can be anywhere in the clay, paint or glaze. The use of both substances are allowed in china-ware but they must be below a certain treshold. As lead and cadmium reduces the melting temperature of raw materials, many manufacturers use lead and cadmium in their production in order to reduce production costs considerably. Responsible manu-facturers, use raw materials that does not contain lead and cadmium even though this increases the production costs.

Lead

Lead is a toxic substance that can affect people of any age. It is especially harmful to children, pregnant women and unborn babies. According to sciefentic studies conducted by different health institutions in different years, lead accumulates in your body, especially in bones, brain, heart, kidneys, liver, nervous system and pancreas so even small amonts can pose a healt hazard over time. Lead is a claimed neuro-toxin (kills brain cells) and excessive blood lead levels in children have been linked to learned disabilities, attention defict disorder (ADD), hyperactivity syndromes and reduced intelligence and school achievment scores.

Cadmium

According to US Agency for Toxic Substances and Disease Registry, eating food or water with high levels of cadmium, severely irriates to stomach and leads to vomit-ing and diarrhea. Long-term exposure of cadmium in the food and water can lead to kidney disease, lng damage and fragile bones. Cadmium is ten times more toxic then lead and its effects are ten times more damaging. The half life of cadmium in the body is between 10-25 years. Chronic issues such as asthma, bronchitis and testicular can-cer can develop and there is a strong association with cadmium toxicity and kidney disease.

How Lead and Cadmium Get Out of Your Dishes and Get Into Your Body

1. Eating foods with an acidic base such as: tomato sauce, pickle juice, orange juice, apples, soy sauce and salad dressing. Acidic foods cause lead and cadmium to leach from the plates and into your food.
2. Microwaving your food in ceramicware that contains lead. Unsafe lead concentrations are found in some chinaware after microwave use and this could result in the ingestion of large amounts of lead.
3. Automatic dishwashers can damage glazed surface of your chinaware, causing lead to be leached the next time you see the plates. That heat and intensity of the water hitting the plates can cause the glaze to deteriorate off of chinaware. This would expose the decals. Paint and the clay. In addition, the lead and cadmium can contaminate other chinaware that was placed in the dishwasher.

Kutahya Porselen, offers to its customers the products that can be uses safely. Kutahya Porselen guarantees that all is products are lead and cadmium free. All products manufactured by Kutahya Porselen are in conformity with European Standards and US standards.
