

Love it!

We design and make beautiful rustic oak boards.
Using English character oak every board is unique and
handmade by prisoners.

[Naturally simple]

RoughStuff's rustic boards and food displays are simple by design, natural and handmade.

Proof is in the eating

We have made boards for the likes of James Martin, Carluccio's, The Grove, Goodwood Park Hotel, London Zoo, The Cutty Sark, Radisson, Celtic Manor, Holroyd Howe, Baxter Story, Ampersand, BBC and Lloyds of London as well as over 300 independent restaurants.

Tailor-made

If you can't find a board to fit we'll design and make one for you. We can also hot brand your boards with your own logo.

Beyond boards

We design food displays, furniture, and even restaurants. We also have our own RoughStuff pottery specialising in hand thrown ceramics.

Individual and locally sourced

We try wherever possible to source locally, our oak is guaranteed to come from the UK and our pottery comes from Wiltshire. Each board is made from a single piece of English oak, creating an individual and rustic quality. Every Oak Board is kiln-dried to a set moisture level and treated with anti bacterial food safe oil.

In Prison

We believe in simple design that looks great, is functional and easy to craft by hand. It's a modern take on the Arts & Craft movement, which also advocated social and economic reform.

We work closely with the Mount Prison in Hertfordshire who make all our boards. This brings new pride, skills and job discipline to the prisoners.

Copper, ceramics and oak Turn your creative tap on!

New and funky

Buffets need to be flexible and dynamic which is why we have designed a new set of play things using copper piping and English oak boards.

The best way to design a buffet is to invite the RoughStuff team over with their Landrover full off stuff to play with.
