

Hansun

ZHEJIANG HANSUN INDUSTRIAL&TRADE CO., LTD.

Fulfill the client's needs with the quality products by engaging in the long-term working relationship

**Ultimate
Table
Solution**
www.chinahansun.com

Founded in 1989, Hansun started the manufacturing business by working on the material fabrication and plastic injection. Today, Hansun is a market leader in the folding table products.

In the Hansun's long tradition of manufacturing, product quality has always been the top priority; it also lifts up our company as an ultimate manufacturer for the outsourcing products, including metal sheet fabrication, steel tubing, plastic injection, tables and chairs production.

Our manufacturing facility is located in Yongkang, where about two and half hours away from Shanghai, and 40 minutes drive to the nearest airport.

Hansun is dedicated to manufacture high quality products with a low cost, our vision is to fulfill the client's needs with the quality products by engaging in the term working relationship.

**Fenlite
ABS
series**
www.chinahansun.com

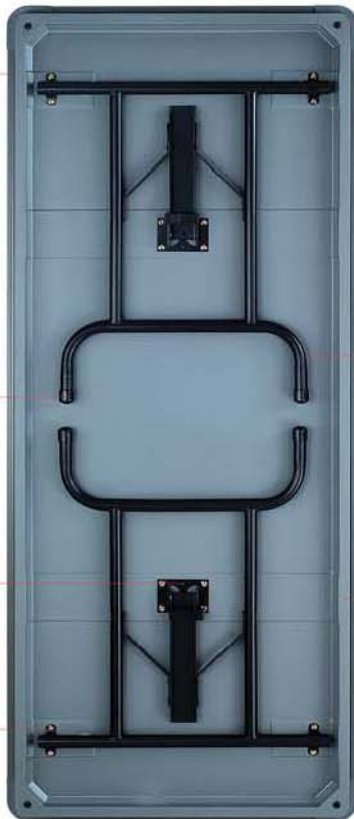

PVC plastic edge molding design helps to protect tops, and it is fit with the apron clips.

PP non-slipping feet.

Bracket is attached to the one-piece steel frame, which gave table superior stability and strength.

Chrome plated screw fastens leg to the steel frame.

Rubber Bumpers keep tables from sliding when stacked.

16 Gauge tubing ensure the table hold upto 2000lbs of weight evenly distributed.

16 Gauge one piece steel frame is connected by the inner plastic injected corner.

Rubber Bumpers keep tables from sliding.

Injection Molded ABS corners are designed for 30cm height drop with not structural damage to the table.

Gravity locking folding system.

ZHEJIANG HANSUN INDUSTRIAL&TRADE CO., LTD.

Fulfill the client's needs with the quality products by engaging in the long-term working relationship

- 1 **Impact-resistant Corners**
Injection Molded ABS corners are designed for 30cm height drop with not structural damage to the table.
- 2 **Stacking Bumper**
Replaceable rubber Bumpers keep tables from sliding, and protect the table surface when stacked.
- 3 **Inner Corner**
Injection Molded ABS inner corners not only prevents the drooping related damage, but also helps to Absorbent the force to the steel frame.
- 4 **One-Set Steel Frame**
The 16 Gauge square tubing provides the table over 2000lbs weight when equally distributed.
- 5 **PVC edge molding design**
One piece edge molding design give table the ability to absorb shock on the edge.
- 6 **Light ABS Plastic Shell**
high-impact ABS plastic for both table top and bottom, aviliable in variety of textures and colors.
- 7 **Honeycomb core**
Paper Honeycomb makes the table upto 45% lighter than wood tables, now it is even aviliable in PP(Polypropylene) honeycomb core and aluminium core, which makes the table top even stronger.
